**ICST Corporation will exhibit at MEDICAL FAIR ASIA 31<sup>st</sup> Aug – 2<sup>nd</sup> Sep, 2016 in Singapore.**

ICST Corporation will exhibit at SAITAMA city pavilion at the 2016 MEDICA FAIR ASIA in Singapore. The company introduces mainly education & training products (simulators) and medical devices as following;

< Medical devices >

- **"T.L.F Cuff"**

Cuff inflator and monitor for endotracheal intubation tube.  
Analog display on LCD for easy visualization of changed in pressure.  
Pressure is controlled appropriately, preventing excess pressure and protecting the trachea.

- **" Safersonic Ultrasound Transducer cover."**

Use adhesive tape on the contact area of transducer tip.  
No necessary to put the echo gel in the transducer cover.

<Education & training (simulator)>

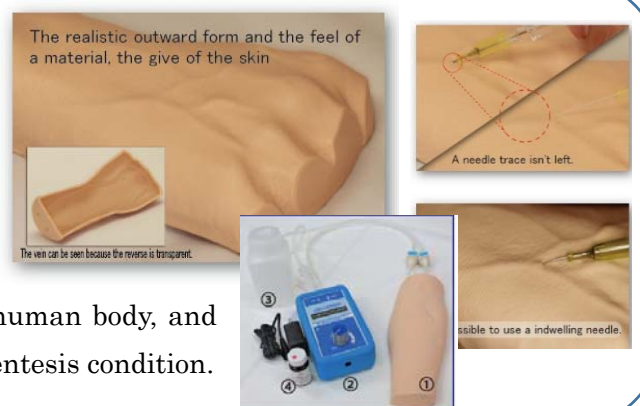

- **"Injection Trainer"**

Training device for injection and suction.  
Pressure during injection/suction is "visualized" with wave patterns. Training in line with the standard wave pattern of injection/suction pressure.

- **"Bio skin medical care training kit series"**

Injection arm model with pump for dummy blood.  
Suture Training plate.  
The dummy for the medical-education which reproduced the feel of material of the skin and the elasticity of the skin realistically by the unique elastomer resin finish technology. It is reproducing the centesis resistance of the human body, and possible to do the confirmation of the vein position and the centesis condition.

- **"The CNK endoscopic needle holder for suture training"**

Featuring a handle with excellent dexterity,  
realistic weight and grip force.
