

ICST (Institute of Circulation System Technology) is committed to health in both daily life and the economy

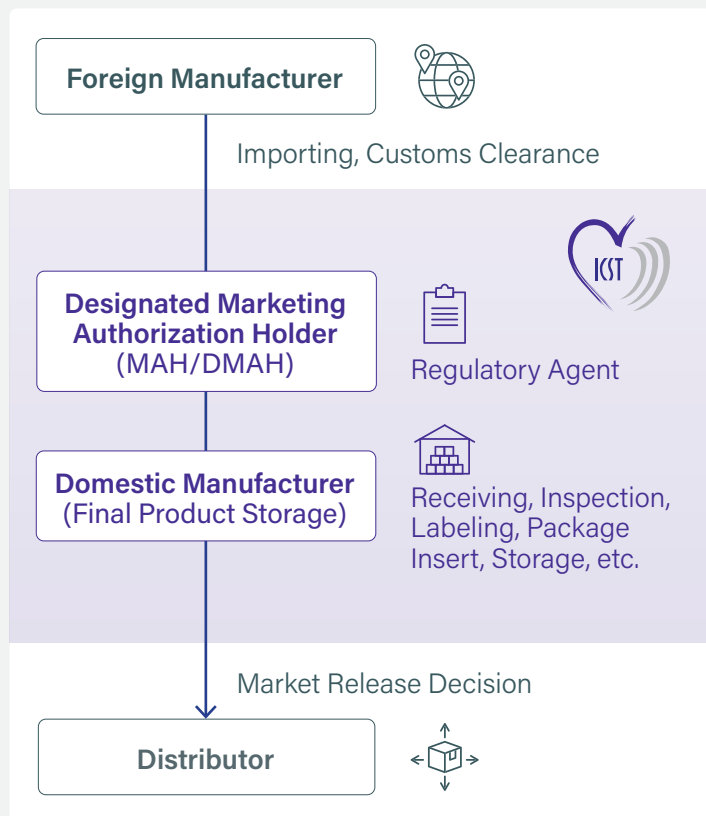

We strive to contribute to human health through the development and sales of a wide range of medical and healthcare devices, and promotion of healthy economies worldwide through global alliances with overseas companies.

Yokoi Hiroyuki (Founder & CEO)

Key Business 3

Japan Regulatory Affairs Service

As MAH/DMAH, we provide **full regulatory support** for medical devices and IVDs, from registration to post-market surveillance. Through our manufacturer license, we offer **domestic manufacturing services** together with regulatory affairs support, including inspection, packaging, labeling, and temporary storage until market approval is obtained.

*This is an outline of our **One-Stop Service** flow. We can also accommodate your designated storage facility (Domestic Manufacturer).*
